

Which mattress is right for me?

We've put this guide together to make choosing your mattress easy. Here's a brief introduction to the key differences across our range,

FREE DELIVERY & ASSEMBLY

10 YEAR GAURENTEE

MADE TO ANY SIZE OR SHAPE

Spring count

The more springs a mattress has, the more precisely it can respond to your body and distribute weight evenly. Higher counts create a more refined, supportive feel, especially for couples or those seeking better pressure relief. Spring count doesn't determine firmness: all pocket sprung models can be made Medium or Firm.

Natural fillings

Natural fillings are used across the range. As you move up the collection, the amount and blend of these layers increases. Each is chosen for comfort and its ability to regulate temperature and wick away moisture for year round comfort.

Hand side stitching

Hand side stitching reinforces the edges to help the mattress keep its shape over time. Our top models feature up to four rows, a skilled, time-intensive finish that delivers superior edge-to-edge support.

Open coil & pocket springs

Our entry models use open coil springs for great value support. From the Canterbury upwards, individually wrapped pocket springs move independently to contour to your body and minimise disturbance from movement.

Our mattress guide

Mattress	Chosen for	Spring count	Depth	Natural Fillings	Price range
